## ABSTRACT RULES

The first author of the abstract is normally the presenting author, and he/she bears responsibility for the content of the abstract and presentation. If a presentation is to be given by someone other than the first author, this information must be given in advance on the abstract submission form.

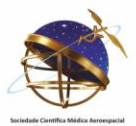

The language of the abstract and of the presentation should be English, except for the Iberian and the Joint Portugal/Brazil Conferences where the slides must be in English but the presenter can speak in English, Portuguese or Spanish. Translation of slides and posters from other languages into English is the responsibility of the author.

The title of the presentation should be concise and given in English in all cases.

Abstracts reporting original studies should be structured to include an Introduction, Methods, Results and Conclusions sections. Abstracts of clinical presentations and case studies may deviate from this format. The total number of words in an abstract shall not exceed 300. The online abstract submission form will permit a few more than 300 words to be entered, to allow for formulas and special formatting.

## SUBMISSION & GUIDELINES

- Only abstracts submitted via the online submission form will be accepted and sent to the Abstract Review Committee for review.
- Authors are encouraged to prepare abstracts off-line and paste into the online submission form.
- By submitting the abstract you acknowledge that you have ensured before submission that all co-authors are aware of the content of the abstract and have approved it.
- Please do not submit multiple copies of the same abstract.
- Submission of an abstract acknowledges your acceptance for the abstract to be published in the official Conference publications, both in paper and all online formats.
- Presenting authors of abstracts must be registered participants. Registration must be paid in full as soon as abstract acceptance is received and not later than **31 May**, to ensure inclusion of the abstract in the Congress publications and to be scheduled for presentation.
- The Scientific Committee will determine whether the abstract will be accepted as oral or poster presentation, with consideration given to the author's preference.
- Abstracts received after the deadline will not be considered.
- A confirmation email will be sent to you upon receipt of your abstract. Please contact the Secretariat if you have not received any confirmation.

## ABSTRACT PREPARATION

Follow the instructions and fill in all the fields of the online form.

- Abstract title – limited to 50 characters in UPPER CASE
- Abstract text – limited to 1720 characters (spaces included) approximately 300 words.
- Presenting author and co-authors' contact details: The initial letter of the name(s) and the full surname for each author must be provided. Do not include degrees or titles.
- Affiliation details: department, institution, city, state (if relevant), country
- Authors are required to indicate their preference for either ORAL or POSTER presentation by checking the appropriate box on the submission web form. The Scientific Committee will make the final decision on the format of presentation (i.e. oral or poster).

**There is the option to save the abstract as draft** and to submit it at a later stage, though not later deadline date. After you submit your abstract as draft you can re-enter the submission link at any time to view and edit your abstract until the deadline date. Please note that **if you do not submit your abstract as final and keep it in draft mode after the submission deadline all the information will be deleted.**

All the materials produced will be an accurate reproduction of the information submitted by the author. Therefore, changes cannot be made to the spelling of the title, the abstract or the authors after the submission deadline.

## PRESENTATION GUIDELINES

Authors will be notified as to the acceptance status of their submissions. The notification includes the assignment of session category and presentation format (oral or poster) and detailed instructions regarding requirements and instructions for oral and poster presentations.

In any case, the author(s) must ensure that any images, pictures or diagrams used for their presentation (oral or poster) are not subjected to copyright. By submitting the abstract, the author(s) confirm and accept that they are totally and solely responsible for any charges or procedures associated with use of copyrighted images, pictures or diagrams.

Any change in the presenting author needs to be communicated in the form of a written statement to the secretariat.

If the original presenting author is unable to present the abstract, it is that person's responsibility to ensure that one of the co-authors takes over the role, and to advise the secretariat. In any case, the presenting person must be a registered participant.

## CERTIFICATES

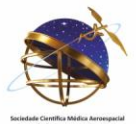

After the Congress, a digital certificate will be provided for the approved work to the author responsible for submitting the abstract in the website. Only 1 (one) certificate shall be issued per submitted work.

## CONFLICT OF INTEREST

The highest standards of ethics must be employed in the conduct and reporting of studies to be presented at the Congress. There must be no commercial promotion of products or procedures.

Authors are required to declare all non-governmental or non-academic support or funding (for example, business or commercial support) for the work upon which the presentation is based.
